

Shank with magnet / quick-change coupling, Hexagon shank: 6,3R

Order data

Order number	675020 6,3R
GTIN	4013288104045
Item class	63H

Description

Version:

Two-piece, i.e. shank and bit are separate. This means that in case of wear, only the relevant bit has to be replaced.

“Rapidaptor” adaptor with automatic **quick-release adaptor** and magnet for C 6.3 and E 6.3 bits (the magnet holds the screw). The floating, free-running ring magnet sleeve reliably holds even long and heavy screws (only for C 6.3 bits).

- **Holder for C 6.3 and E 6.3 bits.**
- **The sleeve clicks into the open position. It locks automatically when a bit is inserted.**
- **Even the smallest bits can be removed without problems, since the sleeve lifts the bit away from the magnet.**

Quick change of bits, always one-handed.

Note:

Rapidaptor free-running coupling shank available from our eShop (No. 675035 size 6.3F).

overall length: 57 mm

Hexagon drive: D 6.3 (1/4 inch)

Machine drive: E 6.3 (1/4 inch)

Technical description

overall length	57 mm
Hexagon shank	6.3 mm
Hexagon drive	D 6.3 (1/4 inch)
Machine drive	E 6.3 (1/4 inch)
suitable for machine	yes
