### Description

#### Version:

The optional setting process wizard is a premium software app which supports the worker in the setting process and in evaluating the riveting procedures. If an error is detected a message appears in the app and the Andorn ring lights up in a colour.

#### Advantage:

- **Teaching mode: Virtual rotary knobs allow easy teaching of the rivet configurations and setting of the tolerance window.**
- **Creation of job lists for execution of various rivet configurations.**

#### Application:

For reliable setting process evaluation, with error detection.
