

Carbide-tipped hammer drill SDS-plus, Ø×overall length: 10X260 mm

Order data

Order number	789000 10X260
GTIN	4002395312252
Item class	76G

Description

Version:

The 3 special Power Breaker projecting teeth of the M2 generate micro-cracks in the material being drilled, these promote quicker advance by the drill and faster removal of material. The high quality carbide tip with particularly strong brazed joint guarantees long tool life, even in reinforced concrete. The reinforced core flutes (KVS) are vibration-damping, so the impact energy is transmitted directly to the drilling tip.

Application:

For drilling concrete, natural stone, and masonry.

Note:

When using extra long drills (> 500 mm), first drill a pilot hole with a shorter drill of the same diameter (prevents bending and breakage).

Shank: SDS Plus

Flute length: 200 mm

Technical description

overall length	260 mm
Flute length	200 mm
Ø	10 mm
Number of cutting edges Z	2
Tool material	Carbide
Use with impact / without impact	Impact drilling
Shank	SDS Plus

Type of product

Masonry drill
