

Carbide-tipped hammer drill, SDS-max, Ø×overall length: 35X570 mm

Order data

Order number	789200 35X570
GTIN	4002395374489
Item class	76G

Description

Version:

Special carbide tip geometry for longer working life.

Allows accurate spot drilling and good centring guidance within the hole. Large flute channels for quick evacuation of waste material, resulting in less friction.

Drill head with square cross section from Ø 16 mm.

Application:

For drilling concrete, natural stone, and masonry.

Note:

When using long drills > 500 mm, first drill a pilot hole at least 150 mm deep with a shorter drill (preferably of the same Ø).

Shank: SDS Max

Flute length: 450 mm

Technical description

Flute length	450 mm
Number of cutting edges Z	2
Ø	35 mm
overall length	570 mm
Tool material	Carbide
Use with impact / without impact	Impact drilling
Shank	SDS Max
Type of product	Masonry drill
