 Medium screwdriver
 Small screwdriver

A) All functionalities can be locked.

B) Jaws can be locked.

C) Functions accessible from outside.

D) Single-hand control functions.

E) Scale graduations on the handle.

Application:

An all-purpose tool and "friend in need", a must-have for every tool cabinet and every toolbox. For years anyone who wanted a multi-tool for single-handed use had to choose between two options: Either have the pliers OR the blade opening single-handedly. Now Leatherman has combined the two variants and developed the first multi-function tool that can be used 100 % with one hand: the Leatherman OHT. This unique tool is equipped with spring-return pliers and wire cutters, so that your gripping hand is not fatigued by constant re-opening. Symbols are

embossed into the handles so you can quickly identify the underlying tools. In addition, the belt cutter, the wrench for gas bottles, the adapter for standard cleaning rods and much more makes the OHT a real glutton for work – and gives you a free hand.

Supplied with:

Presented in a: Nylon bag

Note:

Please comply with the relevant national offensive weapons regulations! Germany - WaffG § 42a Section 1 no. 3 permits the carrying of fixed-blade knives only for trade use, maintenance of traditions or participation in sports.

overall length: 115 mm

Number of functions: 16
