

## Centre protector for shafts, External Ø: 48 mm

### Order data

Order number	881550 48
GTIN	2050001676030
Item class	83U

### Description

**Advantage:**

Rotating centre permits higher tensile forces. Easy extraction even where the centring hole is too large or is absent.

**Application:**

Perfect **protection of the centre** when extracting bearings, sleeves, pulleys and gears. Extracting the components **without damage** (protects the end of the shaft).

### Technical description

External Ø	48 mm
